Nursery Catalog

**The SUNSHINE State
NURSERY**

Sioux Falls, South Dakota

Foreword and Greetings

The Sunshine State Nursery was established at Yankton, S. D., in 1920, just ten years ago. Last fall we moved the nursery and the offices to Sioux Falls, S. D., feeling that by this move we will be able to give our patrons better service. The new management wishes to thank all our past customers and friends, and trust that you will all stay with us. With this new price list, all previous prices are hereby cancelled.

Our aim always has been and always will be to give our customers first class, strong and healthy transplanted stock actually grown in South Dakota. With our severe climate and short growing season, as compared with further south and east, trees and shrubs do not grow as tall in the nursery in a certain length of time, as they would in a more favorable climate. But they do grow more bushy and stocky here, they produce larger roots, tree trunks are larger in diameter for the height, and shrubs are much more bushy. All the weaker plants in the nursery have been discarded, and only the strong and vigorous individuals are left to fill our orders with. So, when comparing prices with southern nurseries, remember that you can depend on getting real values from us.

Terms and Conditions

All stock offered in this catalog is net at Sioux Falls, S. D., delivered, properly packed, to the transportation company.

Stock will be shipped by express or freight, as requested, or as our judgment would dictate.

Parcel-Post Shipments can be made in the case of small orders, the postal fee to be collected from customer on arrival. It is difficult to estimate parcel post charges beforehand. Prices for strawberries include postage and will be sent prepaid.

Split shipments may be an advantage sometimes, and in such cases we will use our best judgment. Sometimes perennials and strawberries should be planted a few weeks later than trees and shrubs that have been ordered.

Planting instructions will be sent with each shipment.

Claims for shortages or mistakes should be made at once after arrival and examination of the stock, in order that we may make suitable adjustments and send new stock to you at once. We want you to be satisfied.

Our Guarantee is this: That our stock is true to name, healthy and free from dangerous insects and diseases. Copy of our state inspection certificate will accompany each shipment. Stock which fails to grow will be replaced at half price provided it was planted according to directions, properly handled and that it was paid for at or before delivery. Requests for replacement must be made before Sept. 1, for spring planted stock, and before May 1, for stock received or planted the fall before.

Canadian Customers please add ten per cent to your order to cover cost of fumigation and other expense necessary for exporting stock to Canada.

Terms: All orders from private individuals are cash with the order, but orders for \$20.00 or more may be shipped provided one-third cash accompanies the order. The balance to be collected on delivery. School Boards and other public bodies order what you want and we will bill you the usual way after delivery.

Rates are as follows: Six to twelve plants at the dozen rates, and 50 to 100 plants or more at the rate per hundred.

* * * * *

Just one more word and that is that we do not offer various discounts and premiums etc., but we do believe in giving you the best nursery stock your money can buy, to pack it well, and to deliver it to you at the proper time. We want our customers to stay with us.

You are cordially invited to visit our nursery located in the south part of Sioux Falls, one half mile west from Minnesota Ave. which is the state highway No. 15, or federal No. 77. Take the road to the Municipal Airport. We always have lots of pretty flowers for visitors. For special appointment phone us first.

Phone: 4285-J or 5255. Office at 1011 West 21st Street.

Sunshine State Nursery

Sioux Falls, S. D.

1930 Specialties

There are a few real outstanding specialties in horticulture that have been widely tested over a period of years, and now are available to those who want the best. No one can make any mistake by planting largely of those eight wonderful new and tested specialties listed here.

MENDEL PEAR

At last you can all grow your own pears in your own yard. For full description and illustration see page 5.

DOLGO CRAB

An all-around excellent Crab of extreme hardiness and beautiful bright red color. Fine for jelly, pickles, sauce and other uses. A symmetrical tree, strong crotches, and bears young. Does best when grown as a low-headed tree. For prices see page 6.

OKA CHERRY

The most successful cherry yet produced for the entire northwest. Very profitable when grown commercially. For full description see page 7.

LATHAM RASPBERRY

The best, large, prolific, healthy and desirable Raspberry. For prices see page 8.

CHINESE ELM

The most wonderful and valuable tree ever introduced into the Northwest. For full description and prices see page 11.

HOPA CRAB

Prof. Hansen's new red flowering crab of extreme hardiness and blooms as a young tree. Very showy. See page 12.

CISTENA PURPLE SAND CHERRY

The purple-leaf sandcherry, one of the finest and most showy ornamental shrubs we have. Entirely hardy and will add color to any yard. For prices see page 19.

VIRGINAL MOCK ORANGE

This new hardy mock orange has large double waxy flowers and these are very fragrant. The flowers come in June and again in August and September. Medium sized shrub. For prices see page 19.

MENDEL PEAR

**The Mendel Pear, with the originator,
Wm. Pfaender, Jr., of New Ulm, Minn.**

"A wonderful new pear seedling. A bonanza for the northwest. Hardy, non-blighting, and A No. One quality" thus this new pear was described by its originator, the late Wm. Pfaender, of New Ulm, Minn.

The Mendel tree is as hardy as an oak, throughout the northwest section of the country, and it has never blighted, which is its greatest asset. All other pears die from blight after the first few years. This pear

is really the only one that will actually produce fruit in this territory. It has now been tested for over ten years, and the old parent tree still stands, hale and hardy, exposed to the elements, on the top of the hill, at New Ulm, Minn.

The fruit is as large as the Bartlett, and of wonderful sweet flavor. It ripens fairly late, and will keep for several months. It has no grit. When ripe the fruit is of a bright golden yellow. The fruit hangs well to the tree. The tree also makes a very fine ornamental tree, and can be planted on the lawn.

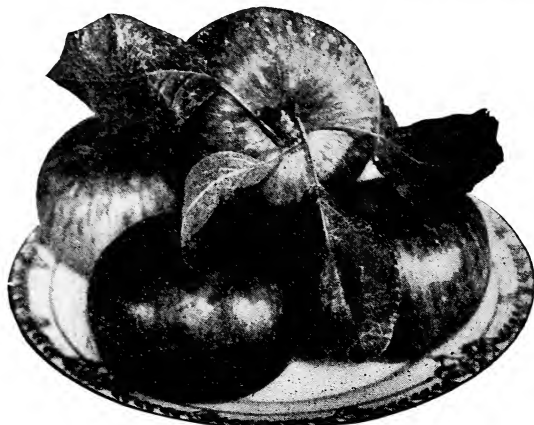

We have so much proof of the value of this new pear that we will make this startling offer to those who plant this variety: If one or all of your Mendel Pear trees die from winter-killing or from blight, we will refund the money paid for the trees, or will give you other nursery stock as free replacement.

—O—

Prices on Mendel Pears:

	Each	Per Doz.
Branched trees, 5 to 7 ft.-----	\$.95	\$9.50
Branched trees, 4 to 5 ft. -----	.75	7.50
Branched trees, 3 to 4 ft. -----	.55	5.50
Branched trees, 2 to 3 ft. -----	.45	4.50
Slender trees, whips, 3 to 4 ft. -----	.50	5.00
Slender trees, whips, 2 to 3 ft.-----	.40	4.00

APPLES AND CRABS

A Plate of Wealthys

All apples and crab apple trees offered by us are on hardy northern roots that will not winter-kill. Low - headed, bushy trees will give the most fruit throughout the northwest.

APPLES

ANISIM, medium size bright red, late fall, prolific.

DUCHESS, the best all around early fall apple, very hardy.

GRIMES GOLDEN, beautiful golden yellow.

low, high quality dessert apple. Plant south and east of Sioux Falls, S. D.

HIBERNAL, the hardiest of all, large and good for canning.

JONATHAN, bright red, snappy flavor, not hardy north of Sioux Falls.

McINTOSH, a fine sweet apple, good keeper, not so very hardy.

NORTHWESTERN GREENING, very large green apple, excellent keeper.

WEALTHY, the best all around apple for every purpose, hardy.

YELLOW TRANSPARENT, very early, juicy, bright yellow, good.

Prices for above varieties: Each Per Doz.

Branched trees, 3 to 4 ft.-----45c \$4.50

Branched trees, 4 to 5 ft.-----60c 6.00

SPECIAL VARIETIES OF APPLES

ANOKA, Professor Hansen's wonderful early bearing fall apple.

HARALSON, the famous Minnesota winter apple, excellent quality.

Prices for two above special varieties: Each Per Doz.

One year trees only, strong whips, 2 to 3 ft.-----50c \$5.00

18 to 24 inch-----40c 4.00

CRABS---All Very Hardy

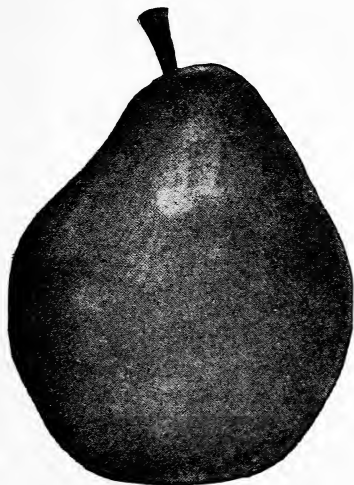

HYSLOP, large dark bluish red, late, heavy yielder.

RED SIBERIAN, clear red, hard, not so large, very hardy.

WHITNEY, large, early, red crab excellent for dessert and canning.

Prices for above crabs:	Each	Per Doz.
Branched 4 to 5 ft. trees -----	60c	
Branched, 3 to 4 ft. trees -----	45c	
Whips, 3 to 4 ft. -----	35c	
Whips, 2 to 3 ft. -----	30c	

DOLGO CRAB: The best of Professor Hansen's Crabs:
2 to 3 ft. trees -----50c

PEARS—See Also Page 5.

Minnesota Number One Pear: This variety was originated by the Minnesota Fruit Breeding Farm, and is claimed to be hardy and almost blight proof. The fruit is small but of very good quality.

Prices on Minnesota

No. 1 Pear:	Each	Doz.
Branched trees 5 to 6 ft. -----	\$1.00	\$10.00
Branched trees, 4 to 5 ft. -----	.80	8.00
Slender trees, 4 to 5 ft. -----	.65	6.50
Slender trees, 3 to 4 ft. -----	.55	5.50

PLUMS AND HYBRIDS

PROFESSOR HANSEN'S PLUMS AND HYBRIDS

HANSKA, the best flavored of his plums, good shipper, hardy.
OPATA, early, dark blue, early fruiting, prolific, very good.
SAPA, very early, bears young, red flesh, excellent for sauce.
WANETA, the biggest of them all, superior in every respect.

MINNESOTA STATION PLUMS

LA CRESCENT, the fine new large yellow plum.
MONITOR, dark red, prolific, large sweet plum.
RADISSON, very large, excellent quality, small pit, prolific.
UNDERWOOD, the earliest of these four, large, red, excellent.

PLUM-CHERRY HYBRIDS

COMPASS, very hardy, an old standby, good for the far north.
NICOLLET, almost like a sour cherry, red, excellent flavor.

Prices on above Plums and Hybrids:	Each	Per Doz.
Branched trees, 4 to 5 ft. -----	75c	\$7.50
Branched trees, 3 to 4 ft. -----	60c	6.00
Branched trees, 2 to 3 ft. -----	45c	4.50
Slender trees, whips, 3 to 4 ft. -----	50c	5.00
Slender trees, whips, 2 to 3 ft. -----	35c	3.50

CHERRIES

THE OKA CHERRY

This is Professor Hansen's masterpiece in cherries. The tree is very hardy, it bears young, it is very prolific, and bears annually. It naturally produces a bush-like tree, and it will do better if allowed to grow into this form, rather than trying to make a high-headed tree of it. The fruit is very sweet, large for a cherry, dark blue when ripe, red flesh, and a very small pit. After the fruit is

ripe it will hang on the tree for several weeks, and if left too long will shrivel up like a prune. It can then be picked and either canned or stored like prunes after drying some more. It is so sweet it does not require much sugar when canning or cooking it for sauce. When cooked or canned it comes the nearest to the real western black cherry of any of the fruits that thrive in this section. This cherry is hardy in Saskatchewan, Alberta and Manitoba, as well as in the entire northern United States. As a reliable producer it has no equal. No home should be without this cherry.

Prices for Oka Cherry:	Each	Per Doz.
Branched 3 to 4 ft. trees-----	\$1.00	\$10.00
Branched 2 to 3 ft. trees-----	.75	7.50
Branched 18 to 24 inch trees-----	.60	6.00
Branched 12 to 18 inch trees-----	.45	4.50

NOTE: Even the smaller trees will usually bear the next year.

OTHER CHERRIES

TOM THUMB, Not as large as the Oka but very hardy and prolific. Will grow on the poorest and driest soils.

Prices for Tom Thumb Cherries:	Each	Per Doz.
Branched, 2 to 3 ft. trees, low and bushy-----	65c	\$6.50

EARLY RICHMOND, earliest and best of the old fashioned pie cherries but not so hardy in the extreme north and west.

Prices for Early Richmond Cherries:	Each	Per Doz.
Branched trees, 3 to 4 ft. trees-----	75c	\$7.50

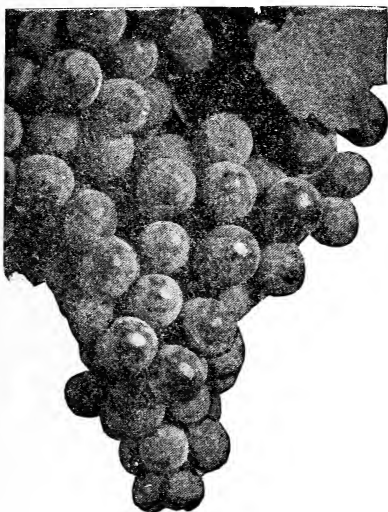

CHINESE BUSH CHERRY—(*Prunus Tomentosa*—government selections). Dwarf bush cherry, very hardy, bright red fruits, almost as large as Early Richmond. Also makes a beautiful tall ornamental shrub.

Only a few plants available, heavy 2 to 3 ft. size-----\$1.00 ea.

GRAPES

ALPHA, very hardy, large, good grower, prolific, fair flavor.

BETA, hardiest of all, medium size, the old standard hardy grape.

Beta Grapes

CONCORD, large, dark blue, medium late, not so hardy.

NIAGARA, the best of the large white grapes, not so hardy.

WORDEN, earlier than Concord, just as large and good. Almost hardy.

Prices for Grapes: Each Per Doz.
Strong 1 year plants 30c \$2.50

RASPBERRIES

LATHAM, the best of all red raspberries, very large and prolific.

KING, a good old standby, red and prolific.

OHTA, the hardiest for further north. Berry not so large.

OLDER, the hardiest of the black raspberries. Good quality.

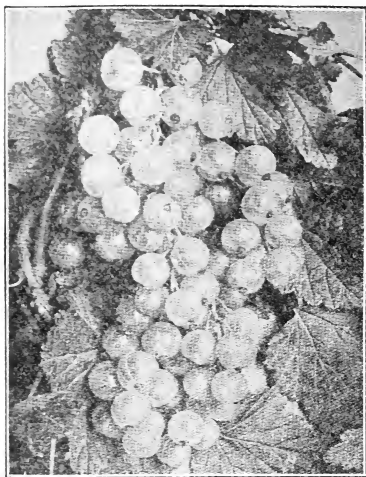

Latham Raspberry

Prices for Raspberries:

	Each	Doz.	Per 100
Strong, young plants -----	25c	\$1.50	\$10.00

CURRENTS

London Market

LONDON MARKET, prolific red currant, hardy, but berries not so big.

PERFECTION, berries very large red, plants grow rather slowly. Fine quality.

WHITE GRAPE, the best white currant, sweet and mild.

Prices for Currents:

Strong plants:	Each	Per Doz.
London Market	----25c	\$2.00
Perfection	-----35c	3.00
White Grape	-----25c	2.00

GOOSEBERRIES

CARRIE, the best of the new varieties, very prolific and hardy.

HOUGHTON, the old favorite, never fails, small berries but prolific.

Prices on Gooseberries:

	Each	Doz.	Per 100
Strong plants,			
2 years old	30c	\$2.50	\$20.00

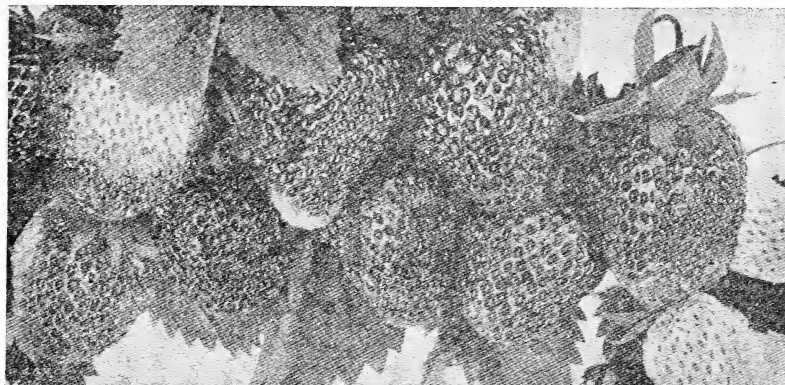

ANOTHER SECRET OF SUCCESS

Cut back the branches at planting time. Fruit and shade trees should have their branches shortened by one-half, at planting time. You can cut off more from a fast growing variety, like a poplar, than from an ash or walnut, which grow slowly. Most shrubs can be cut down to one-half or two-thirds their original size. Newly planted hedges should be cut down quite low, for instance, Buckthorn, this should be cut down to 4 inches from the ground even when 3 to 4 ft. plants were set out. But the cutting should in all cases be done right at planting time, later when the leaves have come out it is not so good.

DON'T FORGET that our stock is guaranteed to be true to name and replaced at half price if it fails to grow. A trial order will convince you.

For Lawn Grass Seed—See Page 30

STRAWBERRIES

Progressive

DUNLAP, the best all-around spring bearing variety.

PROGRESSIVE, the standard everbearing variety.

MASTADON, the biggest of all strawberries, everbearing.

Postpaid Prices for Strawberries:		Per 25	Per 100
Dunlap	-----	\$.75	\$1.75
Progressive	-----	1.00	2.50
Mastadon	-----	1.25	3.50

MISCELLANEOUS

	Each	Doz.	Per 100
Rhubarb, or Pie Plant, Giant Crimson	-----25c	\$2.00	\$10.00
Asparagus, Washington, rust proof	-----	.75	2.50
Horse Radish, Bohemian, the best	-----	.50	2.50

MISCELLANEOUS WILD FRUITS

PLANT THESE FOR THE BIRDS

	Each	Per Doz.
BUFFALOBERRY , gray foliage, red berries	-----50c	\$5.00
CHOKECHERRY , white flowers, clusters of dark red fruits	-----25c	2.00
ELDERBERRY , large white flowers, black berries, summer	-----50c	5.00
JUNEBERRY , early white flowers, dark blue berries, June	-----50c	5.00
SANDCHERRY , dwarf bush, white flowers, small cherries, black	-----50c	4.50

THE CHINESE ELM

Young Chinese Elm

The Chinese Elm, *Ulmus pumila*, is by far the most valuable tree that has been introduced from any foreign country. The first 1000 small trees of this elm were planted at the federal experiment station near Mandan, N. D., in the spring of 1913. It was not long before those in charge realized what a wonderful tree it was. It withstood severe dry summers, extremely cold winters, and without irrigation made the most astounding fast growth.

The Chinese Elm is a well shaped tree, has numerous dense twigs and branches, with an abundance of small leaves. When young and when grown as a windbreak tree

without any pruning, it grows very dense, almost like an evergreen, and it usually retains its dark green leaves a month or six weeks later than the American elm. If pruned too much from below when young, it is a little inclined to split, or branches at the top grow so fast that they sometimes break in heavy wind or sleet storms. Over-pruning also makes the trees liable to canker or sunscald, which of course would not happen if the trees are left alone for a few years.

The most valuable feature of the Chinese Elm is its wonderfully fast growth. It is without question the fastest growing of all trees in this northwest section of the United States, even exceeding the cottonwood and box elder. It will stand severe droughts, and severe dry and cold winter climates.

This tree has now been widely tested throughout the Dakotas and further north and west, and has passed the experimental stage. It also is grown in most other sections of the United States, and

flourishes everywhere. It makes a pretty lawn tree, an elegant avenue or street tree, a wonderful windbreak tree, and a delightful tree for parks, or for shade purposes.

Our trees are grown from seeds collected in the north, and prospective planters should beware of getting trees grown too far south. Such trees are likely to winterkill, as they are not acclimated.

Prices of Chinese Elms:	Each	Doz.	Per 100
6 to 12 inch seedlings -----		\$1.50	\$10.00
12 to 18 inch seedlings -----		2.00	12.50
2 to 3 ft. seedlings -----	.40	3.00	20.00
3 to 4 ft. seedlings -----	.50	4.00	30.00
4 to 5 ft. transplanted trees -----	1.25	12.00	80.00
5 to 6 ft. transplanted trees -----	1.75	16.00	110.00

TREES

Class One, Low growing ornamental Trees:	Each	Per Doz.
Crab, Bechtel Flowering, 18 to 24 inches-----	\$.75	\$ 7.50
2 to 3 feet -----	1.00	10.00
Crab, Hopa, Crimson Flowers, 18 to 24 inches-----	.75	7.50
2 to 3 feet -----	.90	9.00
Maple, Tartarian, 18 to 24 inches-----	.50	5.00
2 to 3 feet -----	.75	7.50
Mayday Tree, 18 to 24 inches-----	.75	7.50
2 to 3 feet -----	1.00	10.00
Plum, Newport Purple-Leaf, 18 to 24 inches -----	.65	6.00
2 to 3 feet -----	.75	7.00
Plum, Pink Double Flowering, 18 to 24 inches -----	.60	6.00
2 to 3 feet -----	.75	7.50
Russian Olive, 3 to 4 feet -----	.50	5.00
4 to 5 feet -----	.75	7.50

Elm, Moline, grafted, all same shape 5 to 6 feet-----	1.50	15.00
Hackberry, Northern, 4 to 5 feet -----	1.00	10.00
5 to 6 feet -----	1.25	12.50
Birch, European White, 4 to 5 feet -----	1.00	10.00
5 to 6 feet -----	1.50	15.00
Birch, Cutleaf Weeping, 4 to 5 feet -----	2.50	25.00
5 to 6 feet -----	3.00	30.00
Linden, or Basswood, 5 to 6 feet -----	2.00	20.00
Maple, Norway, 4 to 5 feet -----	1.50	15.00

Maple, soft or Silver, 4 to 5 feet -----	.50	5.00
5 to 6 feet -----	.75	7.50
Mountain Ash, European, 4 to 5 feet -----	.70	7.00
5 to 6 feet -----	1.00	10.00
Poplar, Bolleana, 3 to 4 feet -----	.75	7.50
4 to 5 feet -----	1.00	10.00
5 to 6 feet -----	1.25	12.50
Poplar, Lombardy, 4 to 5 feet -----	.50	5.00
5 to 6 feet -----	.70	7.00
Poplar, Northwest, 4 to 5 feet -----	.90	9.00
Poplar, Silverleaved, 4 to 5 feet -----	.80	8.00
5 to 6 feet -----	1.00	10.00
Walnut, Black, Northern Strain, 4 to 5 feet -----	1.00	10.00
5 to 6 feet -----	1.40	14.00
Willow, Laurel-Leaf, 4 to 5 feet -----	.50	5.00
5 to 6 feet -----	.75	7.50
Willow, Niobe, Yellow Weeping, 3 to 4 feet -----	.60	6.00
4 to 5 feet -----	.75	7.50
5 to 6 feet -----	1.00	10.00
Willow, Red North Star, Weeping, 4 to 5 feet -----	.75	7.50
Willow, Russian Golden, 3 to 4 feet -----	.40	4.00
4 to 5 feet -----	.50	5.00
5 to 6 feet -----	.70	7.00

CLIMBING VINES

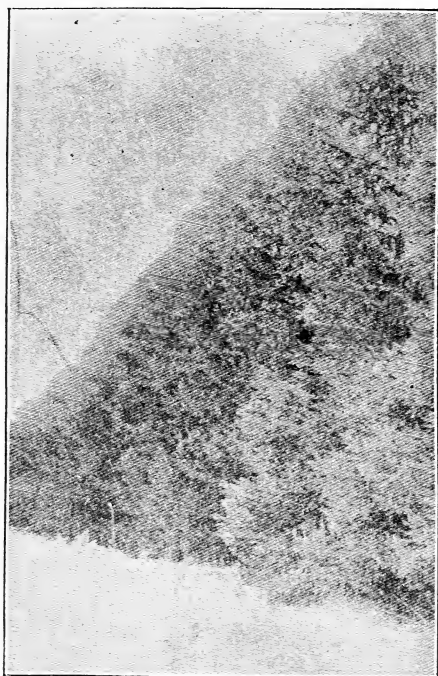

Strong Two-Year Plants.

	Each	Per Doz.
Beta Grape -----	\$.30	\$3.00
Bitter Sweet -----	.35	3.50
Clematis, red, purple, or white, large flowers -----	1.00	9.00
Dutchman's Pipe -----	1.00	9.00
Engelmann Ivy -----	.40	4.00
Matrimony Vine -----	.20	2.00
Scarlet Trumpet Honeysuckle -----	.45	4.50
Virginia Creeper -----	.25	2.50

MONEY REFUNDED AT ONCE

We are not satisfied with just guaranteeing you good stock and to replace the same at half price if it fails to grow. We have such confidence in our stock and our force of men, that, if for any reason whatsoever, you are dissatisfied when stock reaches you, we want you to advise us at once and your money will be refunded the same day. All we ask is that you will take good care of such stock until word of disposition of the stock has reached you.

All of these will do well in the shade: *Spirea sorbifolia*, Wahoo, Persian Lilac, Garland Mock Orange, Alpine Currant, Japanese Barberry, Summer Hydrangea, Coralberry, Siberian Dogwood, and Virginal Mock Orange.

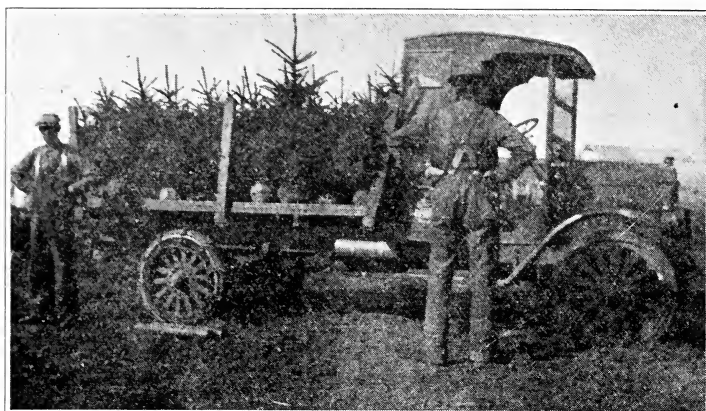

Evergreen Windbreak

Forest Tree Seedlings and Windbreak Stock

Many of our old wind breaks are dying out. It is time to start replacing these wind breaks with new plantings. Where the old wind break is partly dead interplant with ash, elm, Chinese elm, soft maple and caragana. For a new wind break plant from five to eight rows, using willows or Russian olive for the outside row, and use some long lived trees, like elm or ash, and some of the quicker growing kinds like poplars, willows and box elder.

	Per 100
Ash, Green, 6 to 12 inches	\$1.00
12 to 18 inches	2.00
18 to 24 inches	3.00
Box Elder, 12 to 18 inches	2.50
18 to 24 inches	4.00
Caragana, 3 to 6 inches	1.00
6 to 12 inches	2.00
12 to 18 inches	3.00
Choke Cherry, 6 to 12 inches	4.00
Elm, American White, 12 to 18 inches	2.50
18 to 24 inches	3.00
Elm, Chinese—see page 12.	
Maple, Soft or Silver, 6 to 12 inches	2.50
12 to 18 inches	3.00
Poplar, Northwest, 6 to 12 inches	5.00
Russian Olive, 6 to 12 inches	6.00
12 to 18 inches	10.00
Willow, Russian Golden, 18 to 24 inches	4.50
2 to 3 feet	6.00
Willow, Laurel-Leaf, 18 to 24 inches	4.50
2 to 3 feet	6.00

EVERGREENS

Load of Evergreens Leaving Our Nursery

BLACK HILLS SPRUCE, without ball and burlap, packed in moss.		Each	Per Doz.
8 to 12 inches	-----	\$.75	\$ 7.50
12 to 18 inches	-----	1.00	10.00

8 to 12 inches	8.00	18.00
12 to 18 inches	12.00	27.50

LANDSCAPE GARDENING or **LANDSCAPING** means: "The planting of suitable trees, shrubs and other plants, in such an arrangement that the result is pleasing and desirable." It is not necessary to copy the arrangement of someone else. Originality is highly desirable. We will be glad to help you to select the right trees and shrubs for your grounds.

"The outdoor sitting room," or the "backyard family park" will make a wonderful addition to your yard and will give it more of the home atmosphere.

ORNAMENTAL HEDGES

Caragana Hedge

All Hedge Stock is Heavy Transplanted Stock Except Where Noted

For clipped hedges set plants in a single straight row, plants one foot apart. It is not so good when a zigzag row or double row is planted. Unclipped hedges, like Honeysuckle or Spirea, etc., can be planted 18 or 24 inches apart in a single straight row.

	Per 25	Per 100
Alpine Currant , very fine, low clipped hedge, green until late fall, thrives in shade, 12 to 15 inches heavy -----	\$10.00	\$30.00
Barberry, Japanese , excellent thorny dwarf hedge, very graceful shape, red berries all winter.		
9 to 12 inches -----	2.50	7.00
12 to 18 inches -----	6.00	18.00
Buckthorn , very sturdy, hardy clipped hedge, dark green foliage, can be sheared from two feet up to six or more. Thorny. 6 to 12 inches, Sdls.---	3.00	8.00
12 to 18 inches -----	5.00	15.00
18 to 24 inches -----	7.00	20.00
Caragana , one of the hardiest and best of all hedges, first to leaf out in spring, stands shearing, beautiful light green foliage. This is hardy north to Hudson Bay. 3 to 6 inches, Sdls. -----	.75	2.00
12 to 18 inches -----	3.00	9.00
18 to 24 inches -----	4.00	12.00
2 to 3 feet -----	5.00	16.00
Cotoneaster , one of the newer varieties, very ornamental, shiny green leaves, can be clipped very low, or up to five feet. 6 to 12 inches Sdls.---	3.50	10.00
12 to 18 inches -----	9.00	25.00

For a tall protective hedge—Plant Caragana.

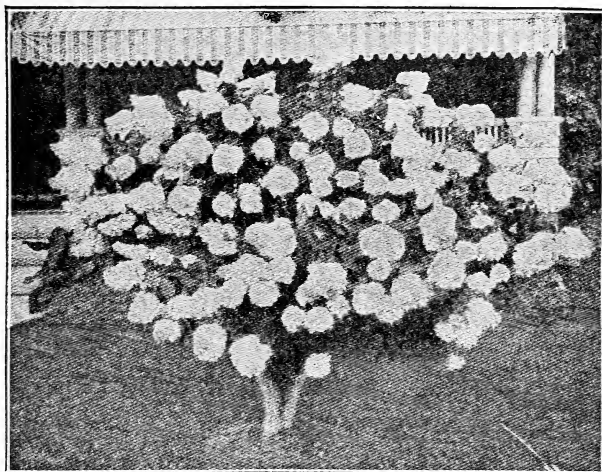

For beauty and satisfaction—Plant Caragana.

Our Transplanted Stock Will Save You Time and Will Produce Wonderful Results.

TEN NEW RULES FOR SUCCESSFUL TREE-PLANTING.

1. Make a decision to plant trees.
2. Buy good trees.
3. Buy them from a good, reliable, young firm.
4. Take good care of the trees when they arrive.
5. Plant them properly.
6. Prune them.
7. Water them.
8. In a week, water them again.
9. In another week water them again.
10. Love them.

LANDSCAPE SHRUBS

Finest Mixed, including some of the above and also many other fine and rare varieties. Like a Grab-Bag.

Prices on above Iris: Strong divisions, 20c each; \$1.50 per doz.
by the hundred, ten or more of a kind, \$9.00.

PERENNIAL DEPARTMENT

These flowers, which include some of the finest in existence, when once planted, will live for many years and increase in size and beauty each year. Every fall they die down to the ground, but the roots live through the most severe winter, and in spring come up again, blooming better than ever. Many of them will bloom all summer long. Most of them are wonderful for cut flowers. Those listed here are all hardy, but should be given a light mulch late in fall after the ground is frozen.

PEONIES

We offer here a few of the more successful hardy and desirable varieties at reasonable prices. The stock we send out are all good field grown strong three to five eye divisions. Many of these may bloom the first year.

Peony—Festiva Maxima

	Each	Per Doz.

SPRAYING SUPPLIES

You Will All Need Them.

The Insects Are Still With Us.

The best all-around spray to combat all insect pests is:

EVERGREEN

This is a combination spray that will kill all insects on plants. Evergreen is non-poisonous and may be sent through the U. S. mail. It is harmless to human beings but kills all insects. It is not a remedy against plant diseases. Directions on each bottle.

Postpaid Prices for Evergreen:

1½ ounce bottle, makes about six gallons of spray-----	\$.40
6 ounce bottle, makes from 20 to 25 gallons-----	\$1.35
16 ounce bottle, makes from 50 to 100 gallons-----	\$2.75

EVERGREEN spray will kill worms, plant lice, potato bugs, thrips, leaf hoppers, slugs, cabbage worms and cucumber beetles, etc.

* * * * *

The following poisons can not be shipped by mail and so we have assembled a small collection of spray materials with a one-quart hand sprayer at a reduced price to be shipped by express, charges to be paid by customer. Directions on each package. This collection will safe-guard you against all the diseases and insects that plants are infested with, including scale insects and mildews etc. For the average Home-Owner.

SUNSHINE STATE LAWN GRASS SEED

**EARLY order-
ing allows
EARLY
planting.

EARLY
planting
produces
a successful
LAWN.**

The cheapest lawn is produced by planting the best lawn grass seed obtainable. Sunshine State LAWN GRASS SEED is the best obtainable. A low price on grass seed may mean that it contains much old seed and much chaff. Don't buy chaff.

Our seed is tested for germination and purity. No weed seeds.

One pound of good seed will be enough for about 300 square feet of new lawn. Don't plant oats with grass seed. Plant early, rake in lightly and roll. Keep moist for three weeks. Start cutting with a lawn mower as soon as long enough, but not too short at first.

Prices for Sunshine State Lawn Grass Seed.

1 lb. 55c; 5 lbs. \$2.60; 10 lbs. \$5.00.

JUST ONE OF OUR MANY UNSOLICITED TESTIMONIALS 528

Sunshine State Nursery,
Yankton, S. D.

(Our new address is Sioux Falls, S. D.)

Gentlemen:

I take the liberty to advise you that the nursery stock received from you is doing fine. It laid around here for a week or ten days before I found time to set it out, but owing to the clean, fresh condition it was in when it arrived, and notwithstanding the unavoidable neglect the stuff got at this end, every plant is coming out smiling. There was no nursing or coddling necessary to start growth, which shows that the stuff had vitality and as robust a constitution as that of the good old U. S. A. Many thanks for the good quality of the material, and good treatment.

Yours truly,
(Signed) J. C. OTTERHOLM,
877 Flandreau St.

St. Paul, Minn., June 7th, 1928.
